

Index

It is hoped to provide in this index a tool which will render the PROCEEDINGS of maximum practical usefulness for future research. Effort has been made to cover with all reasonable fullness not only names but also subjects of every kind, and to connect them up with a substantial network of cross-references. Particular attention is called to the valuable department, "New Jersey in Print," which records in each issue the numerous current publications about New Jersey. The subject matter of each such book, pamphlet, or article has been indexed carefully. Subjects not concerning this state have been largely excluded; consequently it will be understood that the general references below (e.g. Adult education) relate in some way to New Jersey. Items describing current events are not indexed, nor are authors' names in the cases of publications cited or listed. For generous and valuable editorial help in connection with this index, a special word of thanks is due to Mrs. Miriam O. Ball, a member of the Society and of the Newark Public Library staff.
